Farquhar's Quality Bulbs

Awarded Gold Medal at the Spring Flower Show, Boston, March, 1931

SINCE 1882 we have supplied flowering bulbs of the finest quality to a discriminating, critical clientele. An ever-growing list of customers justifies our policy of selling only the *highest grade* bulbs obtainable, at the *lowest possible prices* commensurate with such quality.

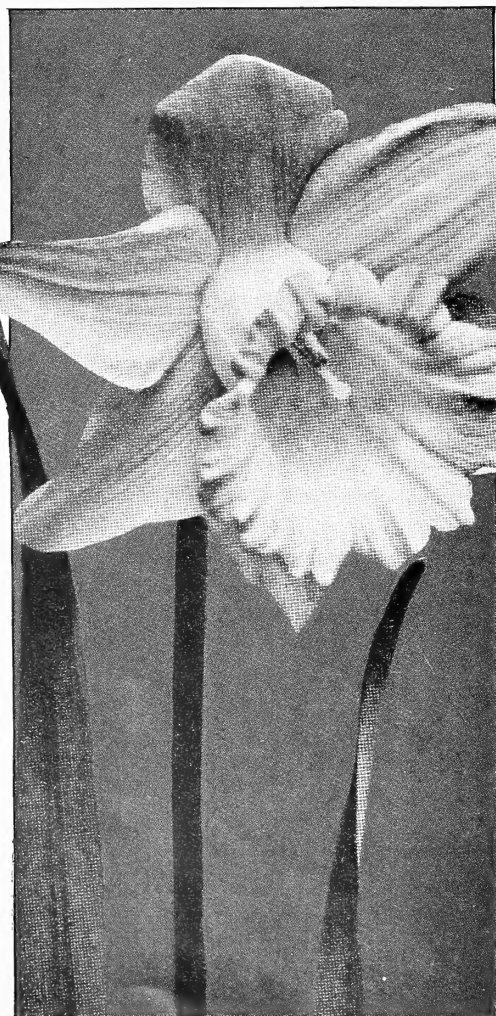

This year bulb prices are much lower—in many cases prices quoted are actually less than the cost of production. Another year prices are likely to be considerably higher.

Take advantage of this wonderful opportunity to add to your collection of bulbs. Right now is your best chance to have that tulip-garden you have always wanted.

Enter your order now—delivery will be made at planting-time in autumn.

Novelties and Specialties in Narcissi for 1931

Not since the importation of Narcissi was prohibited has the supply of American-grown bulbs been sufficient to enable us to offer these choice new and rare varieties at the comparatively moderate prices quoted.

Giant Trumpet Narcissus, Whistler

Duke of York. (*Giant Trumpet.*) Magnificent yellow trumpet on cream-colored guard petals. Invaluable for cutting on account of the glorious beauty of flower and length of stem. \$7.50 per doz.; \$60.00 per 100.

John Farquhar. (*Giant Trumpet.*) Solid yellow trumpet, very wide at the base and opening wider at the brim; sulphur-yellow perianth. \$7.50 per doz.; \$60.00 per 100.

Mrs. E. H. Drake. (*Giant Trumpet.*) Has aptly been called "The White King Alfred." Gracefully recurved and fluted trumpet; broad petals of the same beautiful ivory-white. \$6.50 per doz.; \$50.00 per 100.

Sir Francis Drake. (*Giant Trumpet.*) Clear yellow, very early, long-stemmed flower. Excellent for exhibition forcing. \$4.00 per doz.; \$30.00 per 100.

Whistler. (*Giant Trumpet.*) A glorious hybrid of marvelous size and symmetry. Glistening, pure golden yellow perianth and trumpet. Leading exhibition variety. \$10.00 per doz.; \$75.00 per 100.

Homespun. (*Incomparabilis.*) Perianth exquisitely rounded, of a soft yellow shade; crown charmingly frilled and deeper in tone. \$2.25 per doz.; \$18.00 per 100.

Whitewell. (*Incomparabilis.*) A stunning bicolor. Petals creamy white; crown pure yellow, wide open. Tall-stemmed. \$2.25 per doz.; \$18.00 per 100.

Will Scarlet. (*Incomparabilis.*) Cream-colored perianth, supporting a fine orange-scarlet cup. Very late. \$4.00 per doz.; \$30.00 per 100.

Bonfire. (*Barri.*) A distinct novelty, with ivory perianth, shot through with yellow; cup broadly edged with dark orange. Fascinating and showy. \$7.50 per doz.; \$60.00 per 100.

Lady Moore. (*Barri.*) Snow-white perianth; yellow cup, with deep orange edge. Free-blooming. \$3.50 per doz.; \$28.00 per 100.

Cheerfulness. (*Poetaz.*) Double white hybrid, with 3 to 4 large flowers on a strong stem. Wonderful exhibition variety. \$3.50 per doz.; \$28.00 per 100.

Joconde. (*Poetaz.*) Pale yellow petals; cup deep golden yellow. Bears 4 to 5 flowers to each stem. Exquisite as a cut-flower. \$4.00 per doz.; \$30.00 per 100.

Soleil Brilliant. (*Poetaz.*) Hardy form of the famous Polyanthus variety, Soleil d'Or. Bright yellow petals; deep orange cup. Flowers average 12 to each stem. \$3.00 per doz.; \$22.00 per 100.

Crystal Queen. (*Leedsii.*) Pure white perianth; pale primrose cup. Exquisite flowers, 3 to 4 inches across, on long, stout stems. \$4.00 per doz.; \$30.00 per 100.

Break o' Day. (*Multiflora.*) Large white and yellow flowers of the Sir Watkin type, 3 to 5 on strong, long stems. Effective for cutting. \$3.50 per doz.; \$25.00 per 100.

NON-WARRANTY. We do not give as to description, quality, productiveness, or any other matter, any warranty, express or implied, of any seeds, bulbs, plants, insecticides, fungicides or fertilizers, which we send out, and we shall not be liable for any mistake made in the filling of any order. Tulip-Garden at our Dedham (Mass.) nurseries, with over 20,000 Tulips in 300 different named varieties, in full bloom

Farquhar's Giant Darwin Tulips

The Giant Darwins combine immense size with perfection of bloom, and are carried gracefully erect on fine stems 2 to 3 feet tall. Colors range from purest white to bluish, pink, salmon, shades of red, maroon, purple and almost black; recently some very fine yellows have been introduced of which we offer the choicest varieties. Darwins bloom with the columbines in late May and make a glorious display for several weeks. Effective grouped in front of shrubbery and evergreens, or planted in beds or perennial borders.

The bulbs we offer are of the finest quality and will produce magnificent blooms. Plant them in October or November, 5 to 6 inches deep and 5 to 6 inches apart; a light mulch should be provided after the first hard freeze.

When forcing Darwins indoors, the soil and general treatment recommended for hyacinths may be used. Plant three to five bulbs, according to size, in a 5-inch pot, or ten to twelve in an 8-inch pan. The varieties marked with an asterisk (*) are best for forcing, and are equally desirable for outdoor culture.

Six bulbs at dozen rate; 25 at 100; 250 at 1,000. If wanted by Parcel Post, add postage at zone rates; weight per 100 bulbs, 7 lbs.

SPLENDID MIXTURE. Great variety of many colors and shades. 60c. per doz.; \$4.00 per 100; \$35.00 per 1,000.

Dutch Breeder Tulips

The Breeders are the unbroken forms of the old Florist's Tulips and for size and vigor rival the popular Darwins. Blooming at the same time, and producing the wonderful bronze, buff, brown and purple tones, they may be interplanted with the contrasting shades of Darwins with charming effect. Nearly all varieties listed may be readily forced and will furnish invaluable material for vase decoration in late winter. Outdoors the bulbs require the same cultural treatment as Darwins.

Not less than 6 bulbs at dozen rate; 25 at 100 rate; 250 at 1,000 rate. If wanted by Parcel Post, add postage at zone rates; weight per 100 bulbs, 7 lbs.

Abd-el-Kadir. 26 in. Deep bronze, with a lighter tone at the base. A charming flower for border, bedding, or forcing. \$1.15 per doz.; \$8.00 per 100.

Bacchus. 28 in. Deep plum-purple with gray bloom on outer petals and starred whitish base. Very large, egg-shaped flowers of unique beauty. \$1.15 per doz.; \$9.00 per 100.

Black Chief. Dark purple-black; large, bold flower of good substance, with irresistible appeal. \$1.00 per doz.; \$7.50 per 100.

Bronze Queen. 28 in. Soft buff, inside tinged golden bronze. Flower of excellent form and sturdy habit. Amongst the less expensive varieties it is finest of its color. 75c. per doz.; \$5.00 per 100; \$48.00 per 1,000.

Cardinal Manning (Kingscourt). 28 in. Dull wine-red, suffused rosy mauve and changing to pure orange at extreme edge of petals. 85c. per doz.; \$6.00 per 100.

Copernicus. 28 in. Dark coppery bronze, flushed old-rose; inside reddish brown with base tinted yellow. Flower large and shapely. \$1.00 per doz.; \$7.00 per 100.

Coridion. 24 in. Clear yellow, overlaid with bronzy lilac, shading through centre of petals. A charming art shade which pales delicately almost to pure yellow as it ages. \$2.25 per doz.; \$18.00 per 100.

Bed of Farquhar's Special Rainbow Mixture of Single Early Tulips

Single Early Tulips

These well-known favorites are extensively planted where early-flowering effects are desired, and from early April well into May there is no other flower that can rival the Single Early Tulips in cheerfulness and brilliance of bloom. In the cool of the early spring they bloom on and on, their lasting qualities being truly remarkable. They are invaluable for forcing or for masses in large beds of one color or mixture, but they look even better when planted in clumps and small masses against an evergreen background. Blooming with the narcissi, they add the missing shades of red and pink so lacking in other spring flowers, and thus provide an interest and variety which could easily be lacking if they were not planted.

Their culture both indoors and out is exactly the same as that suggested for Darwins Tulips, except that the bulbs may be lifted and dried off two to three weeks sooner, enabling the annuals and other plants which are required for summer bloom to be planted in time to make a fine start.

Those marked with an asterisk (*) are the best for forcing. The letters A, B, C indicate the relative time of flowering.

Not less than 6 bulbs at dozen rate; 25 at 100 rate; 250 at 1,000 rate. If wanted by Parcel Post, add postage at zone rates; weight per 100 bulbs, 7 lbs.

Farquhar's Special Rainbow Mixture of Single Early Tulips

The varieties included in this Mixture are all grown separately and are the large-flowered bedding sorts. Colors are carefully proportioned, and the varieties are selected to flower at the same time and with slight variation in height. For massed beds or groups, this Mixture is unrivaled. 75c. per doz.; \$6.00 per 100; \$55.00 per 1,000.

DOUBLE TULIPS

The large, double, peony-like flowers appear about two weeks after the Single Early Tulips begin to bloom, and are remarkable for their beauty and lasting qualities. They make lovely borders to grass walks or at the foot of low walls, having a jolly, rose-like appearance unlike other Tulips. They cannot be forced as quickly as the Singles but gorgeous pans may be had in bloom in February and March. Those marked with an asterisk (*) are the best for forcing.

Not less than 6 bulbs at the dozen rate; 25 at the 100 rate. If wanted by Parcel Post, add postage at zone rates; weight per 100 bulbs, 7 lbs.

Double Tulip

Double Tulips in Mixture

FARQUHAR'S RAINBOW DOUBLE TULIP MIXTURE.

This is a blend of the best sorts of Double Tulips for bedding, all selected from named varieties and including a good proportion of the showy light colors as well as the brighter shades. Extra-quality bulbs, 65c. per doz.; \$5.00 per 100; \$45.00 per 1,000.

BOTANICAL TULIPS AND SPECIES

Charming wild species, mostly native of Asia, these showy Tulips make splendid subjects for naturalizing in the rock-garden or herbaceous border. In such favorable surroundings, when once established, they will increase and flower in the greatest profusion.

Clusiana (*Lady Tulip*). 8 in. Dainty, dwarf species with small, brightly colored blooms. The outer petals are white with a brilliant cherry-red stripe, and the inner petals creamy white, base violet-blue. 90c. per doz.; \$7.00 per 100.

Eichleri. 10 in. Rare and beautiful Tulip from Turkestan. The flowers are very large, strikingly colored fiery crimson, and have glossy black centres shaded orange-gold. \$1.15 per doz.; \$9.00 per 100.

Florentina (*Sylvestris*) (*Wild English Tulip*). 18 in. One of the earliest of all flowering bulbs producing exquisite, sweetly scented flowers on long, graceful stems. The blooms have a dainty drooping habit and are clear buttercup-yellow in color. Planted in a sheltered part of the garden, this charming variety will flourish for years. 85c. per doz.; \$6.00 per 100.

Greigi. A gorgeous species with dazzling, flaming orange-scarlet flowers and coal-black centre blotch. Plant in a good sunny situation in the rockery or border. \$2.50 per doz.; \$20.00 per 100.

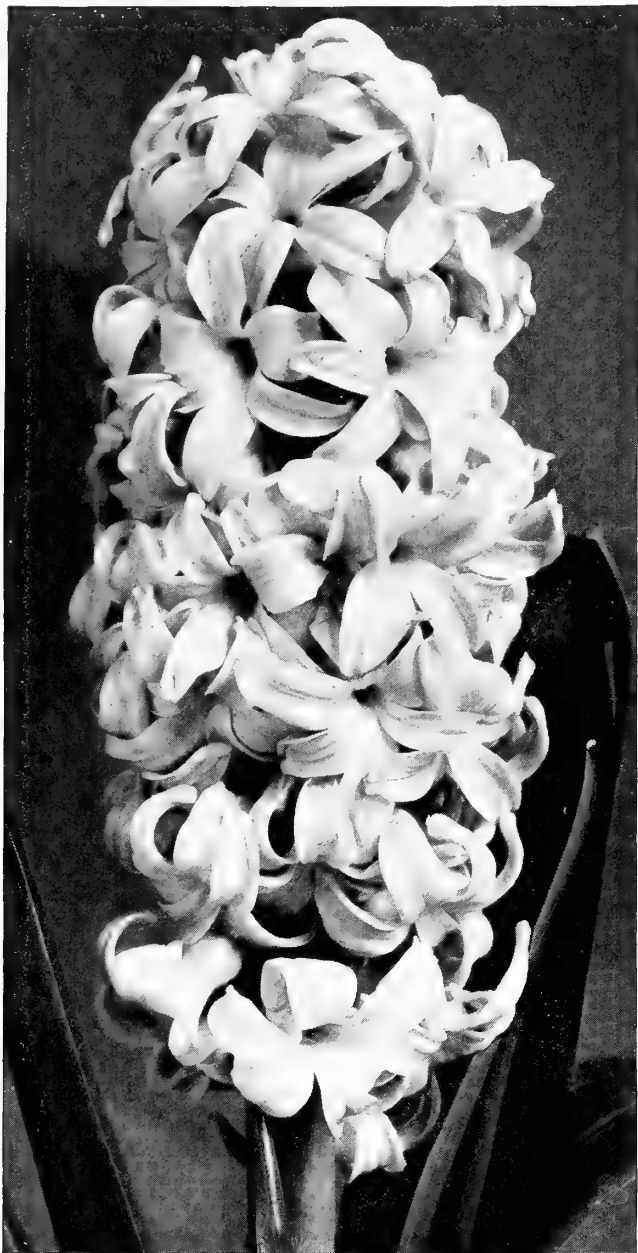

Kaufmanniana. 6 in. A desirable dwarf variety with immense creamy white flowers, tinged rosy red; centre marked canary-yellow. The best situation for this Tulip is a semi-shady spot, preferably in the shelter of large rocks in the rockery or under shrubs or trees in the border, where it should be massed for the most pleasing effect. It blooms extremely early. \$1.15 per doz.; \$9.00 per 100.

FARQUHAR'S "TOP-ROOT" HYACINTHS

Culture of Hyacinths

HYACINTHS IN POTS.—The soil for bulb-forcing should be a compost of ordinary, rich garden loam, well-rotted manure, leaf-mold, and sand—if manure is not available substitute Fine Ground Bone. If bulbs are to be potted singly, standard 5-inch clay pots are the proper size, or four or five bulbs for an 8-inch bulb-pan. Provide drainage with pieces of broken pots. Break off any offsets which may appear at the base of the bulbs and cover with the soil so that the top of the bulb will be about half an inch below the surface. The filled pots may be placed in a coldframe or buried in a bed of sifted ashes and watered occasionally. When well rooted, which should be in from six to eight weeks, the bulbs may be brought indoors and forced, keeping fairly cool for two to three weeks, after which they may be given gentle bottom heat and liquid fertilizer, with plenty of water, sunshine, and ventilation on mild days.

HYACINTHS IN THE OPEN GROUND.—The bed should be well spaded and plenty of well-rotted manure or Fine Ground Bone may be thoroughly worked in. The bulbs may be planted from October to early December; the early planted bulbs produce the largest flower-spikes. Set the bulbs at least 6 inches below the surface and about 6 inches apart. Protect during winter with leaves, straw, and pine boughs.

If wanted by Parcel Post add postage at zone rates; weight per doz. bulbs, 3 lbs.

MONSTER BULBS

The phrase "top-root" is used in Holland to distinguish the extreme of quality in the first-size bulbs, and the varieties we offer below are of this grade.

Farquhar's Polyanthus Narcissi (Ready in November)

If to be sent by Parcel Post, add postage at zone rates
Weight per doz., 2 lbs.; per 100, 12 lbs.

A very decorative class of bulbous plants for greenhouse and window cultivation, but not hardy out-of-doors in our climate. They produce enormous trusses of delicately fragrant flowers.

Early Large-flowering Paper-White. The largest and most vigorous form of the Paper-White and the best of all for very early forcing; pure white. They can be grown in water with pebbles in a shallow bowl and may be planted at intervals throughout the season for a succession of bloom. Extra-Large bulbs. \$1.00 per doz.; \$8.00 per 100.

Grand Soleil d'Or. Yellow with orange cup. May be grown with treatment suggested for Paper-Whites. \$2.00 per doz.; \$16.00 per 100.

Crocuses

If to be sent by Parcel Post, add postage at zone rates. Weight per 100, 3 lbs.

The bulbs should be set 3 inches deep and should be planted in October or early in November to insure success. They are very effective when combined with Daffodils and other spring flowers. For a natural effect they can be scattered in handfuls and planted where they lie. If they are planted in grass, take care not to cut it until after the Crocus foliage has withered away. Crocuses may also be grown indoors either in pots or bulb-pans in loam or in dishes filled with wet moss in which the bulbs are set closely, half an inch below the surface.

A natural effect of Farquhar's Large-flowering Crocus

AUTUMN-BLOOMING CROCUS SPECIES

The following varieties make a welcome addition to the few late-flowering plants available for the border or rock-garden. The brightly colored blooms appear in October, followed in the spring by the foliage. It is well to plant these bulbs as soon as possible after arrival from Holland. Set bulbs about 3 inches deep.

Sativus (Saffron Crocus). Showy blooms of purplish lilac, with a deep penciling of violet, ornamented by the rich orange stigmas. Will make a brilliant showing after a season or two in which to become established. 60c. per doz.; \$4.00 per 100.

Speciosus. Bright violet-blue, handsomely feathered; orange anthers and pure yellow throat. Decidedly attractive in the rockery or border. 60c. per doz.; \$4.00 per 100; \$38.00 per 1,000.

Zonatus. Rosy lilac, with bright yellow centre and orange zone—a color combination of unrivaled beauty. Plant bulbs in groups in a favored spot of the garden and the flowers will appear in a surprisingly short time. 75c. per doz.; \$5.00 per 100; \$45.00 per 1,000.

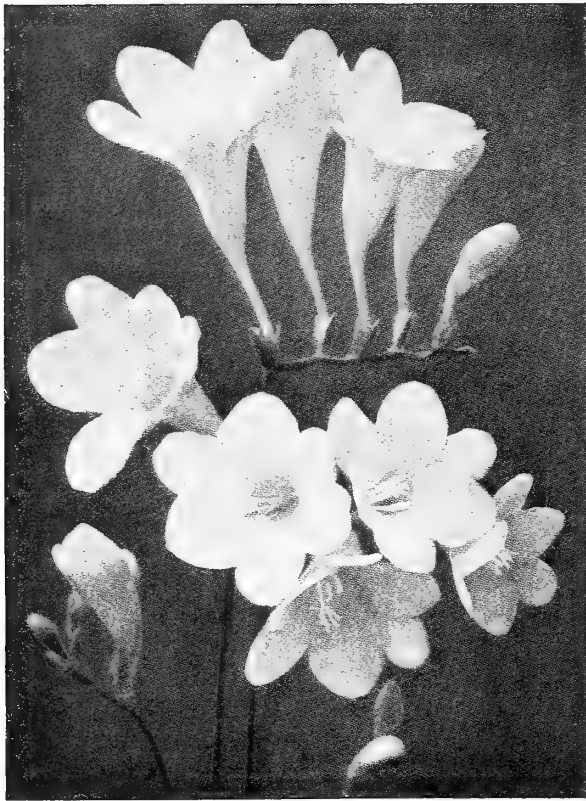

SPRING-BLOOMING CROCUS SPECIES

These have flowers a trifle smaller than the Dutch varieties, but are desirable for naturalizing in rock-gardens and borders. If given a good sunny place, they will bloom before the snow is gone. Plant the bulbs about 3 inches deep.

Susianus (Cloth of Gold Crocus). Deep golden yellow, with rich brown markings on outer petals. Given a suitable sunny situation, this bulb will bloom for years with little or no care. 60c. per doz.; \$4.00 per 100.

Thommasinianus. A charming, distinct species with a slender, deep throat. The color varies from delicate mauve to deep purple in charming variety. The bulbs should be planted in a warm exposure where they will increase rapidly. 50c. per doz.; \$3.50 per 100.

Miscellaneous Bulbs

Freesia, Elder's Giant White

FREESIAS

Plant the bulbs in a 6-in. bulb-pan 2 inches apart, covering them 1 inch; grow them cool with an abundance of water.

LILIES FOR FORCING

If to be sent by Parcel Post, add postage at zone rates; weight per dozen bulbs, 10 lbs.

The bulbs may be potted from August onward in a compost of equal parts turfy loam, leaf-mold, rotted cow-manure, and sand. It is best to start them in pots not exceeding twice their own diameter, in which they may remain until started 8 inches or more. They should be transferred then to larger pots in which to bloom, exercising great care not to disturb the roots or break away the soil from about them, and setting them considerably deeper in the larger pots. This method prevents the soil from becoming sour, and enables the roots forming at the base of the stem to become feeders, greatly increasing the number and size of the blossoms.

LILIUM LONGIFLORUM (Japan-grown)

Giganteum. October and November delivery. Flowers large, perfect in form, and of superior substance; stems marked black. Mammoth Bulbs, 9 to 10 in. cir., \$6.00 per doz.; \$45.00 per 100.

Formosum. September to November delivery. An early-flowering type, blooming as early as the Harrisi. Mammoth Bulbs, 9 to 10 in. cir., \$6.50 per doz.; \$50.00 per 100. Jumbo Bulbs, 11 to 13 in. cir., \$10.00 per doz.; \$75.00 per 100.

Special Notice. Many of the late-flowering Lilies cannot be shipped from Japan until October and will be forwarded in November, or as soon thereafter as they arrive. We advise the preparation of the Lily-beds or borders early in autumn, covering them with 4 to 6 inches of leaves or other litter, to prevent the ground freezing until the bulbs arrive. The late sorts comprise the following: *Auratum*, *Batemannix*, *Henryi*, and *Speciosum*. *Lilium candidum*, however, will be shipped on arrival, as it is essential that they should make an autumn growth to insure perfect blooms the next season.

POT-GROWN STRAWBERRY PLANTS

The Strawberry is easily cultivated: abundant crops can be obtained from a variety of soils, differing widely in character, from a light sand to a heavy clay. The best soil is a deep sandy loam, but any soil suited to the growth of ordinary field or garden crops may be trusted to grow the Strawberry successfully. The soil should be broken up and pulverized by spade-trenching or subsoil-plowing, enriching with good stable manure to a depth of fully 2 feet, the quantity of manure to be determined by the condition of the soil. The plants may be set in beds of three rows 1 foot apart and 1 foot distant in the rows, with a space of 2½ feet between the outside rows of adjoining beds left for a pathway. They may also be planted in single rows 3 feet apart and 1 foot apart in the rows.

Vigorous plants will throw out six or more runners in a season. A limited number of these should be allowed to set and form new plants, but the majority must be hoed out or the bed will rapidly degenerate into a matted, unweeable tangle.

It is a good plan to pull out the old plants after they have borne one good crop and depend upon successive crops from the new runner plants and their descendants. About every third year a new bed should be planted in order to maintain tidiness and high quality fruit.

All varieties offered are strong, pot-grown plants; August and September delivery

FARQUHAR'S "SELECT" VARIETIES OF STRAWBERRIES

EARLY VARIETIES

Arabine. Extra early; very large; bright red berries of high quality; heavy cropper and vigorous grower.

Howard 17. This is undoubtedly one of the finest early Strawberries. The fruit is of attractive conical form, bright red in color, and of delicious, mildly acid flavor. It is hardy and ships well.

Glen Mary. Large, conical, bright red berry, finely flavored.

Premier. A productive variety, bearing large, bright red berries of beautiful form and delicious flavor.

Senator Dunlap. The fruit is large, dark red clear to the centre, and of very rich flavor. Does not readily rot on the vines.

MEDIUM-EARLY VARIETIES

Marshall. The fruit is enormous, of handsome, dark crimson color, and delicious, unexcelled flavor. As it does not thrive in all soils, it should not be planted extensively until its adaptability is ascertained. \$8.00 per 100; \$70.00 per 1,000.

MEDIUM-EARLY VARIETIES, continued

Big Joe. Magnificent variety of robust habit and a prolific cropper. The mammoth berries are light crimson and of superior flavor.

New York. A medium-early variety, with cone-shaped fruit of deep crimson having a delicious aromatic flavor.

Brandywine. Large heart-shaped berry of perfect form, firm and bright red clear through, and pleasing spicy flavor; it is a great cropper and generally succeeds everywhere.

LATE VARIETIES

Gandy. This popular old variety is more largely grown than any other late sort. It is large, well-formed, deep red, and agreeably flavored. Requires a fairly heavy soil.

William Belt. Deep glossy red, delicious berries.

Commonwealth. The latest of all Strawberries, bearing large, conical crimson fruit, extremely sweet and of delicious flavor.

Judith. Large, luscious berries, deep red clear to the core, uniform in size, pointed. Prolific.

Above varieties, \$7.00 per 100; \$60.00 per 1,000 unless otherwise priced

EVERBEARING STRAWBERRIES

A fine late crop may be assured from this class of Strawberries by keeping the blossoms picked off the plants until July, and cutting away the runners during the summer.

Mastodon. The fruit is of extraordinary size, bright red, and of delicious quality. Very prolific. \$10.00 per 100; \$90.00 per 1,000.

Superb. One of the best of this class, the fruit being deep red, firm, and finely flavored. \$8.00 per 100; \$70.00 per 1,000.

Progressive. This variety produces an abundance of fruit, deep red in color, of good size and flavor. \$8.00 per 100; \$70.00 per 1,000.

Farquhar's Superb PANSIES

CULTURE. Pansies thrive best in a cool, moist, but well-drained soil, enriched with well-rotted barnyard manure or fine ground bone. Seeds sown in spring in a partially shaded situation will produce fine plants for autumn flowering. The finest blooms are to be obtained, however, by sowing in July or August, giving the plants protection during winter, when they will bloom profusely in the spring and summer.

The S-L-N Plant Stake

The S-L-N Wire Plant Stake is a new, simple, inexpensive and practical device for supporting plants and flowers. It is a durable stake, made of heavy galvanized wire, enameled green. The stake is pushed into the ground near the plant-stalk, an end around the stalk and necessary.

The 36-in. and 48-in. sizes are also made in extra-heavy galvanized wire, enameled green. These are designed for use where an extra-strong support is required.

Farquhar's Garden Fertilizer

For Vegetables, Flowers and Fruits

A complete high-grade Fertilizer containing all the food elements required to increase the fertility of the land. Even if the soil has received an application of stable manure, a high-grade commercial Fertilizer should be applied in conjunction, thereby furnishing the land with the necessary potash and phosphoric acid. It is generally best to apply all or most of the Fertilizer broadcast and thoroughly work it into the soil before planting. When planting beans, corn, cucumbers, etc., in hills, a handful of fertilizer should be worked into the soil under the hill, so as to avoid direct contact with the seed. The same method of application may be used with cabbages, and other transplanted vegetables; also dahlias, peonies, irises, etc. When top-dressing trees, shrubs, roses, etc., the ground should be whitened and then raked. Before sowing seeds in rows, a little garden fertilizer may be scattered in the drill and worked into the soil before planting. Use, for drills, 2 to 3 lbs. per 100 running feet, or 10 pounds for a plot 15 x 20 feet (300 square feet), 1,000 to 1,500 lbs. per acre. 10 lbs. 85c.; 25 lbs. \$1.50; 50 lbs. \$2.50; 100 lbs. \$4.00; 500 lbs. \$17.00; ton \$60.00.

Adco. For making artificial manure. This manure is made by stacking straw, leaves, and other vegetable waste, layer by layer, mixing it with Adco, and keeping it wet until well rotted. The process is very simple, the manure can be made in your own garden. Directions with each shipment. A 25-pound bag is enough for about 12 wheelbarrow loads of garden waste, making about one-half ton of manure; 150-pound bag makes about three tons of manure. 25-lb. bag \$2.00; special 150-lb. bag \$10.50.

Acid Phosphate. High grade; 16 per cent A. P. A. For top-dressing and mixing with other fertilizers. 100 lbs. \$2.00; ton \$32.00.

Ammonium Sulphate (Sulphate of Ammonia). A nitrogenous plant stimulant, very quick in action and tending to make soil acid, also increasing leaf-growth. For top-dressing lawns, apply 1 ounce per square yard, or 350 pounds per acre. As a liquid stimulant for plants, dissolve 1 ounce in a gallon of water and apply to the roots. 10 lbs. \$1.00; 25 lbs. \$1.50; 100 lbs. \$5.00.

Ashes, Canada Hardwood. Ashes lack ammonia and phosphoric acid but contain potash and lime, which are essential, not only as plant-food, but also as sweeteners of the soil and solvents of other plant-food ingredients. So far as they supply potash and lime, they are nature's plant-food—these things have been extracted from the soil by the trees, and now we return them in the shape of ashes. Pure wood-ashes is one of the best fertilizers for top-dressing lawns, grass-lands, and seeding down, imparting a rich, dark shade of green, destroying many insects and weeds, particularly moss; also for fruit of all kinds, especially strawberries, peaches, and apples. 100-lb. bag \$2.75; ton \$45.00.

Bone, Fine Ground (Bonemeal). Recommended for the garden and for lawns. It is quick to give results and the benefits are lasting. For top-dressing lawns, use from 250 to 600 pounds per acre or 2 to 3 ounces per square yard; for cultivated crops, as high as 1,500 pounds per acre can be used. Mixed with Hardwood Ashes in equal parts and applied at the rate of 800 pounds of the mixture per acre will give marvelous returns on grass-land. 10 lbs. 85c.; 25 lbs. \$1.50; 50 lbs. \$2.25; 100 lbs. \$3.50; ton \$60.00.

Bone, Coarse or Inch. The very best fertilizer for grape-vines, fruit trees, shrubs, and trees of all kinds. The pieces of bone vary from 1/4 to 1 inch in size. Should be used at setting out mixed with the soil to the depth of a foot or more. 100 lbs. \$6.00.

Cattle Manure, Shredded. A coarse, shredded manure, dried and sterilized, useful for all general purposes and especially valuable for top-dressing or composting. About 400 pounds of this dried material may be considered equal in value to approximately one ton of fresh cow-manure. 100 lbs. \$3.25; ton \$55.00.

Loma. The perfect plant-food. A concentrated, high-quality fertilizer, scientifically prepared for lawns, shrubs, trees, flowers, and vegetables. 5 lbs. 50c.; 10 lbs. 85c.; 25 lbs. \$1.75; 50 lbs. \$3.25; 100 lbs. \$6.00.

Pulverized Poultry Manure

PREMIER BRAND

"Premier Brand" Pulverized Poultry Manure is one of the best plant-food elements of any of the prepared manures now offered for sale. It has been thoroughly sterilized and scientifically processed without any loss of the valuable organic matter of which it is composed. Quantity required: Fruits and Vegetables, 1,000 to 1,200 lbs. per acre; Old Lawns, 3 to 5 lbs. per 100 sq. ft.; New Lawns, 4 to 6 lbs. per 100 sq. ft.; Home Gardens, 3 to 5 lbs. per 100 sq. ft.; Trees, 3 to 5 lbs. each; Vines and Bushes, 1 lb. each. 25 lbs. \$1.25; 50 lbs. \$2.25; 100 lbs. \$4.00; ton \$60.00.

Granulated Peat Moss. (Imported.) For top-dressing lawns, mixing with soil in the greenhouse or outdoors where humus is required, and for mulching plants. Trial size, \$1.50; large bale, \$4.00; 10 bales, \$35.00, f.o.b. Boston.

Muriate of Potash. 50% Actual Potash. The most economical form of potash and the most generally used in farm practice. 10 lbs. 75c.; 100 lbs. \$4.00.

Nitrate of Soda. (Reground.) 15.22% Nitrogen equal to 18.50% Ammonia. A plant stimulant that adds nitrogen in a form which is immediately available to the plants. It forces a heavy growth on leaf vegetables and should be used sparingly and with great care—not more than 1 ounce per square yard. As a liquid fertilizer, one ounce may be dissolved in 2 gallons of water. 10 lbs. 85c.; 25 lbs. \$1.75; 50 lbs. \$3.00; 100 lbs. \$5.00; ton \$75.00.

Scotch Soot. A fertilizer and fungicide. One of the best remedies and preventives for mildew, when mixed with sulphur at the rate of two-thirds soot and one-third sulphur. As a fertilizer it promotes growth and heightens color of foliage and flower. Sold only in original bags of about 100 lbs. at 7c. per lb. *By freight only.*

Sheep-Manure

A soluble plant-food highly recommended for all purposes where a first-class fertilizer is required. It is a pure, natural manure, and has long been recognized as one of the most beneficial. As a top-dressing for lawns it is unequalled. For lawns it should be used at the rate of 500 to 800 pounds per acre. As a fertilizing agent for plants indoors and in the open garden, it is one of the very best. 5 lbs. 40c.; 10 lbs. 70c.; 25 lbs. \$1.35; 50 lbs. \$2.00; 100 lbs. \$3.25; ton \$55.00.

Sulphate of Potash. 48% Actual Potash. Valuable for root- and grain-crops but on account of its strength it must be used with great care. Apply 100 to 125 pounds per acre, usually with other fertilizers. 10 lbs. 85c.; 25 lbs. \$1.50; 100 lbs. \$4.75.

Tankage, Blood. 12% Ammonia. Blood Tankage is valuable in greenhouse or outdoors to heighten color of blooms and foliage. 100 lbs. \$7.00.

Tankage, Fine Ground. 9% Ammonia; 20% Bone Phosphate of Lime. 100 lbs. \$4.00.

Vigoro. A superior combination of plant-foods that meets nature's most exacting requirements. When Vigoro is used, no supplementary substances are required. If applied to plants grown on benches or in pots, it should be worked into the soil and the plants then watered. For top-dressing the lawn in spring, use 50 lbs. for a lot 30 x 125 ft. 25 lbs. \$2.00; 50 lbs. \$3.75; 100 lbs. \$6.00.

Imported Fertilizers

Clay's Fertilizer. This is a lasting, productive, economical fertilizer for all horticultural purposes, and a reliable vitalizing medium for conservatory, greenhouse, and garden. 7 lbs. \$1.75; 14 lbs. \$2.75; 28 lbs. \$5.00; 56 lbs. \$8.00; 112 lbs. \$15.00.

Thomson's Special Top-dressing Manure. This Special Manure is meant to be used as an additional stimulant during the growing season. A heaped dessertspoonful will be sufficient for a 10-inch pot, sprinkled over surface of soil, and watered in with tepid water. This may be given three times during the growing season. 14 lbs. \$2.75; 28 lbs. \$4.50; 56 lbs. \$8.00.

Announcement

TO BETTER SERVE OUR GROWING LIST
OF CUSTOMERS, WE SHALL OPEN, ON JULY 1

A New Branch Store at 85-87 Franklin Street

This new location is easily and quickly reached by a short walk from the centre of Boston's busiest shopping district.

Here you will find a modern retail seed-store, completely equipped to handle your garden needs. Experienced salesmen will be ready to courteously and intelligently assist you in your selection.

Our main store and business offices will continue to operate, as before, at 6 South Market Street.

A complete line of seeds, bulbs, and garden sundries has been added to the extensive assortment of nursery stock (one of the best in New England) which is carried at our Elm Street, Dedham (Mass.), nursery.

*Visit our new store—85-87 Franklin St., Boston
on and after July 1, 1931*
